THE STAR-SPANGLED BANNER IN TRIUMPH SHALL WAVE O'er THE LAND OF THE FREE, AND THE HOME OF THE BRAVE.

ANNOUNCEMENT.

We are authorized to announce **HUDSON THATCHER** As a candidate for Circuit Court Clerk of Butler county, subject to the action of the Republican party.

ANNOUNCEMENT.

We are authorized to announce **JAMES M. FISHER** As a candidate for the office of Circuit Court Clerk of Butler county, subject to the action of the Republican party.

The ball is now rolling. Two candidates have already announced themselves, and others are hourly expected. There is no lack of good timber in this county, and the only question is: "Whom shall we vote?"

A Democratic exchange says: "You need not leave your party to advocate a low tariff." You are right; neither need you leave it to advocate any creed, doctrine or principle known on earth. The Democratic party don't care who you advocate, so you vote the Democratic ticket.

In last week's issue, one of our exchanges sets up a pitiful wall because, as it says, a few Democrats in Butler county are going off with the Third Party. No wonder it weeps, for it is only necessary for a few to go off to leave none; for past elections show that there are only a few of them here.

Congressman Dickerson, Democrat, has introduced a bill in Congress to strike from the pension roll all soldiers who held any office Government, State or Municipal. Here is another cowardly thrust at the soldiers. Do it now, if the time ever comes when Democracy has full control of all departments of Government, the soldiers will see fit.

Harrison has given out orders for a negro delegate from the south to be sent to the National Convention. —Exchange.

Even when the truth would do as well, a Democratic paper takes to error as naturally as a duck takes to water. There is not the semblance of truth in the statement; but some people can't keep from yarning. They are built that way.

The Republicans of Butler county are called to meet in mass Convention at Morgantown, Ky., March 14, 1892, for the purpose of sending delegates to the District Convention which meets in Bowling Green, Ky., March 29, 1892, as well as to send delegates to the State Convention which meets in Louisville, March 30, 1892, and to transact other necessary business. The object of the District and State Convention is to send delegates to the National Republican Convention which meets at Minneapolis, June 17, 1892.

J. T. Rives, Chairman County Committee.

The Republicans of the 3rd Congressional District of Kentucky are called to meet at Bowling Green, Ky., March 29, 1892, for the purpose of electing two delegates and two alternates to the National Republican Convention, which meets at Minneapolis June 17, 1892. The Chairman of the various County Committees in this District will call county conventions which will send delegates to the District convention. Since the State Convention meets the 30th of March, I suggest that delegates to the District Convention be also made delegates to the State Convention and go on from Bowling Green to Louisville.

If possible I will make arrangements for reduced railroad rates from Bowling Green to Louisville.

W. S. Taylor Chairman.

Against all the Republican Dist. Committee.

It is not all and in a talk as such things usually do, good may result from the

GIVES UP THE GAIT.

Here is what one of the most prominent Democratic writers in the country has to say about the outlook for Democracy: "Now, Springer says he is waiting for Robert F. Porter to give him some tariff information before he reports his tariff bill to put wool on the free list. We can imagine what sort of information Porter will give him. Mr. Mills has announced that he will move to amend Springer's bill, and he will, doubtless, present a revised Mills bill of 1888 as a substitute, and I would just like to see the Democrat especially the Kentucky Democrat that will vote against the substitute. However, the Democrats may flee 's' their tents and prepare for the fight in 1896; that of 1892 is already lost.

CAMP FIRE COLUMN.

Heedsville, Ky., Feb. 16, 1892.

I notice in the issue of Feb. 11, 1892 a communication from W. R. Threlkel, of Hadley, Warren county, Ky., a late member of Co. G. 11, Ky., Vol. Inf., which I think very appropriate under the existing circumstances, and I heartily endorse the sentiments expressed. I hope that every Republican will turn out at roll call in November next, and fall into line and make choice as to the county officers, along with the State and National officers, for example Harrison for President, and for State officers I have no choice, but they will all make efficient officers, and as to old Butler, the hinner county of Kentucky, I still think we have a sufficient number of true and tried Republicans to fill the offices by the present ballot system.

I have no axe to grind in the gift of the people, lying as I do twenty miles from the county seat; but I will reserve my choice for the primary election for circuit clerk, and would say in conclusion that if W. S. Taylor and Sam Holmes fall, that the North side of Green River is sold to the Dutch.

A. G. HAMILTON.

THE FLAG PROTECTOR.

President Harrison has a happy faculty of expressing sentiments which find a prompt response in every true American bosom. An instance of this is found in that part of his late Chilean message in which he asserts the right of every citizen to the protection of the national flag. Whenever he touches that subject the patriotism of the President always gets the upper hand of his diplomatic powers. His words glow with fervent love of the flag. "We must protect those who in foreign ports display the flag or wear the colors of this Government against insult, brutality and death." "This Government, while exercising the utmost forbearance towards weaker powers, will extend its strong and adequate protection to its citizens, its officers and its humblest sailors when made the victims of wantonness and cruelty in resentment not of their personal misconduct but of official acts of their Government." And the President also extends the old flag over Patrick Shields who, although not a citizen of the United States, was employed on our American merchant vessel, and was maltreated by the Chileans. "The circumstance that the vessel is American is evidence that the seaman on board will find their protection in the flag that covers them."

In the same spirit the President last year sent a naval vessel to the island of Navassa in response to a letter from an American laborer there complaining of the restraint of his liberty by his employers, the phosphates company. And when it was found that the laborer received the protection of the Government; and in his message last December the President poured hot shot into the corporation that had dared to trifle with the right of an American citizen, no matter how humble he be.

Americans, worthy of the name, are proud of their patriotic President.—Es.

WASHINGTON'S LETTER.

Secretary Blaine is not a man of quick temper, but his even disposition was so badly disturbed by the silly statement made without the slightest foundation, that his letter stating that his name would not be presented at Minneapolis was but the preliminary move towards his permanent retirement from public life, and that he intended in the near future to resign from the cabinet, that he lost his temper, as the best man in the world probably have done under the same circumstances. He characterized the statement as "an infernal lie, circulated by idle men who have nothing better to do."

Mr. Blaine was never more interested in the duties of his position, and in the welfare of the Republican party which he recognizes as that of the country, than he is today, and if his health continues as good as it now is he will remain at the head of the state department during the rest of this administration, and during the next one too, unless his desires undergo great change.

The Canadian reciprocity commissioners, now here, came under orders from the Canadian Government, and not from any invitation from this Government. This your correspondent knows to be absolutely correct, statements to the contrary notwithstanding. Secretary Blaine has courteously received them, as he was bound to do, and their propositions will be given proper consideration; but unless they differ from those heretofore submitted by the Canadian government nothing will be accomplished at this end of the line.

Some political benefit may accrue to the Canadian administration at home, because of its having made an apparent effort to obtain commercial reciprocity with the United States.

To-day is the anniversary of the birth of Abraham Lincoln, the first Republican President, and one of the greatest men that ever occupied the White House. There was no formal celebration of the event here, but Senator Culton, accompanied by several Representatives, is in Chicago for the purpose of delivering an address on Lincoln and the Republican party, to the Market Club of that city. Representative Newberry, of Illinois, is pushing a bill to be introduced, to cut off all pensions now paid to foreigners and non-residents. He says that pensions are paid to at least 15 thousand non-residents and that the greater portion of them never intend returning to the United States, and are raising their sons as citizens of the countries in which they now reside, making it possible at some time in the future, if their pensions continue to be paid, for the sons of men drawing pensions from the United States to be fighting against us as soldiers in a hostile army.

Senatorial circles irrespective of party, were shocked by the check recently displayed by Senator Hill. At his request the Senate committee several times postponed its report on the nomination of postmaster Rathbun, of Elmira, N. Y., but at last finding that Hill could show no good reason for holding up the nomination longer, the committee favorably reported it. This week when the report was called up in executive session of the Senate, Hill presented, by proxy, a very modest request that the Senate would defer action until his return from setting up the pine for the control of the New York delegation to the Chicago convention. Did the Senate get mad? Well, it at once confirmed Mr. Rathbun's nomination.

Mr. William Grinnell, who is a nephew of Vice President Morton, has been nominated to be third Assistant Secretary of State, to fill a vacancy.

The bill appropriating \$300,000 for a bronze equestrian statue of Gen. Grant in this city, which was passed by the Senate during the last Congress, has been again favorably reported to the Senate. Its passage by the Senate is certain and the same ought to be true of the House, but it isn't. He is a rash man who attempts to predict what the bedaddled majority of the House will do. So far it does nothing with great industry.

WALTER, TEX., Oct. 11, 1890.

About 14 years ago my son had the first outbreak of syphilitic disease and within three weeks he was in bed. I consulted five different doctors and tried all the country's best medicine, and the disease became more frequent and severe until he had had 4 to 6 attacks daily. After taking 6 bottles of Pastor Koenig's Nerve Tonic and had recovered I think a great deal of it, and would not have been without the Tonic.

Well Satisfied.

That her feelings have been sorely hurt. Just to think that she thought was her friend asked her last Monday if she remembered George Washington.

No, she wants it distinctly understood that there is lots of people that are older that she is. In fact she don't consider herself old at all.

And just to think that some people are taking on so about that awful Henderson Live Railroad which they say is coming up through here.

She thinks the church looks mighty pretty now with all that nice yellow wall paper on it. It makes her think of them good old days when she got so much comfort a spadin' Mr. Ayer's venter almanacs.

But she thinks all them nice fixins in the church will not make any body's soul any whiter where the fixin up is needed. She had rather go to good old log church in the country and hear Red Jeakins sing.

Oh for a closer walk with God than to see all their show and hear all their choirs and organs. She's been expectin John Martin to send her some garden seed down from Frankfort but it looks like they will never come.

She believes if it was Judge Foggy up there she would a had them seeds long ago. Judge Foggy aint the meanest man in the world no how. She has heard that Judge Guffy was away off in St. Louis to the Peoples Party convention.

She dont know whether Mr. Temp Hurreld is with him or not, but she feels that the country is now safe. Willie Ward. The young gent whose name captions this article first opened his eyes upon this wicked world fourteen years ago last Sunday.

Just as preparations were being made for the celebration of the birth of our own Washington, dead and gone, behold another came on who is still with us and promises to remain with us for years to come.

Born of Republican parents, in the Republican county of Butler and the Republican village of Morgantown, it is not unnatural that Willie should be a Republican and as soon as a Republican paper became established in town he very naturally drifted thereinto and has been there; off and on ever since.

Victor County Gazette. The session of the Circuit Court which convened at Morgantown last Monday, has the bloodiest docket ever known in that county, in fact it is unsurpassed by any in the state, for several years, except those lawless couplings in the mountains.

To the Morgantown Sun, whose editor deeply deploras the dark record of his county, but makes no effort to conceal facts, we are indebted for a brief summary of the criminal docket, which embraces the names of six persons on trial for taking human life. R. Y. THOMAS—Mr. Thomas is indicted for manslaughter, and trial is set for next Tuesday.
