PREFACE.

This NEW ANALYTICAL REFERENCE BIBLE makes the Bible its own interpreter by furnishing the reader with the necessary helps for its intelligent study. It embraces, in two parts, which are separately paged—

1. THE AUTHORIZED ENGLISH VERSION OF THE HOLY SCRIPTURES, according to the standard Oxford edition, with parallel passages, notes and the chronology on the outer margins. To these are added references, between the columns, to the ANALYSIS OF THE BIBLE in the second part.

These references will enable the reader to find, at once, all the passages of the Bible which bear on the same topic.

2. COMPREHENSIVE BIBLE HELPS. They present, in alphabetical order, condensed information about the Bible and the several Books composing it, and about the persons, places and subjects mentioned in the Bible. The aim has been to give the results of the latest researches and discoveries in a concise and popular manner, and to state facts instead of opinions.

By means of the ANALYSIS OF THE BIBLE, to which frequent references are made in these HELPS, many of the more important subjects are treated exhaustively by the best of authorities, the Bible itself. Thus, the subject "Jesus Christ" is referred to the ANALYSIS, where 42 pages are devoted to a connected Scripture account of his history, teaching and example.

References are likewise made to passages in the BIBLE and to the CONCORDANCE to enable the reader to prosecute further investigation.

The illustrations and maps were specially prepared for this work.

The HELPS have been revised and edited by the undersigned, with constant reference to the corrections and improvements of the Revised Version of 1885, which is an invaluable commentary on the Authorized Version of 1611.

3. THE COMPLETE ANALYSIS OF THE BIBLE; OR, THE WHOLE BIBLE ARRANGED IN SUBJECTS. This is the work of the late President Dr. ROSWELL D. HITCHCOCK and his assistants, prepared on the basis of TALBOT'S ANALYSIS, as revised by Rev. Dr. NATHANIEL WEST.

It furnishes complete and simple means for finding at once all that the Bible teaches on any subject. Various improvements made in this new edition will increase its usefulness. By means of the ANALYTICAL REFERENCES in the BIBLE and a full INDEX OF SUBJECTS, its study is rendered very convenient.

4. CRUDEN'S CONCORDANCE TO THE BIBLE, edited by the late Prof. Dr. JOHN EADIE and wholly revised, is too well known to need any extended explanation. In its present form it will be found a satisfactory guide for finding every significant word in the Old and New Testaments.

The four works that make up this ANALYTICAL REFERENCE BIBLE supplement each other, and as now arranged and connected will be found to offer a solution of the common difficulties which all Bible students sooner or later encounter, and which all should be able to explain.

Among the many writers who have contributed to the preparation and completion of this volume mention should be made of Mr. HENRY F. GIERE, who prepared the Analytical References, and who has had the general supervision of the work, and of Mr. THOS. W. BAKER and CLEMENS PETERSEN, A. M., for valued assistance on the HELPS.

The Publishers have cheerfully undertaken the great labor attending the issuing of a work of this character, and have spared no expense to bring its contents and typographical execution to a high standard of excellence. It is hoped that the book may prove of great practical use in facilitating and promoting the understanding of the Word of God.

NEW-YORK, Sept., 1891.
