- Grave Listings **166, 171, 178, 183 and 185** were added by Betty Morrow. She got these names from the Freestone County History Book. They do not have headstones. Noah I and Anne (Carden) Keeton may not be buried here; as Anne died before the date of the oldest recorded burial of Arthur Titus who died in 1888. If they are not buried in the Hopewell Cemetery they are most likely buried nearby on their old family home place.
- Grave Listings **227** and **256** are two military markers. It is not known if the daughters placed the stones in their father's memories or the girls also died and their names were added to the same headstone.
- **Sixty-one UNKNOWN GRAVES are marked by flowers, bricks, rocks or unreadable funeral home markers. Certainly there are many more unmarked graves not denoted by any kind of marking. Their names may never be revealed.**

For directions from Fairfield: go east on Main Street until the street turns to FM Road 488. After approximately 2 miles, FM 488 will divide. Take 2570 to the right at the split and remain on it for approximately ten or eleven miles. At the Big Brown Mining Plant entrance turn right, proceed to the guard house and request a key to the cemetery gate. Follow the road to the left, around the plant on the shore of the lake where the road dead ends at the cemetery gate. There is a chain link fence around the cemetery.
